Memo No. MeECL/CA/GA/7/2019/192

Date: 15th April 2021

General notice for self-declaration of connected load & load enhancement

As per the provision of the Indian Electricity Act, 2003 and the MSERC Electricity Supply Code Regulation, 2018 clause 10.1(11), *"the consumer should at all time restrict their consumption within the declared contract demand/ declared connected load. If at any time the consumer exceeds his contracted demand/ load without prior permission of the licensee, the licensee will have the right to disconnect the supply."*

Therefore, the consumer must declare the contracted demand/load as actual and revise it from time to time, otherwise it will attract penal action. It has been observed that, as on date a staggering 3,19,413 nos (including 58,828 nos in Shillong city) of consumers under different categories have declared their connected demand/load as 1kW or below. The above-mentioned figure does not commensurate with the present load pattern of the State. In Khasi Jaintia Hills people extensively use heaters and in Garo Hills air conditions.

The MePDCL extends one-time amnesty offer for all categories of consumers (including domestic, commercial, government departments) to declare and revise their contracted demand/load as per their actual consumption through self-declaration process. The consumers are requested to fill up the 'Self Declaration of Connected Load' form as attached herewith and submit it to their respective office of the Assistant Executive Engineer, MePDCL within 1 (one) month from the date of this notification. MePDCL will verify the applications and revise the contracted demand/load on basis of the applied load factor and serve notice to the consumer to pay the additional security deposit.

After expiry of 1 month, the MePDCL reserves the right to unilaterally increase the contracted demand on the basis of the load factor and the consumption during the previous 12 months as mandated under Electricity Supply Code and serve notice to pay the additional security deposit and in case of failure, initiate the proceedings as per law including disconnection, recovery of penalty among others.

The same process will be followed for all other consumers having contract load of 2kW, 3kW, 4kW,5kW subsequently to ascertain their actual load.

(Arunkumar Kembhavi, IAS)

Chairman and Managing Director, MePDCL

Date: 15th April 2021

Memo No. MeECL/CA/GA/7/2019/192-A

Copy to:

- 1) Secretary to the Government of Meghalaya, Power Department.
- 2) Director Information and Public Relations, with a request to publish this notice in one Khasi, Garo, Pnar and English dailies, both as a news item and as a paid advertisement.
- 3) Director (Distribution) with a request to instruct the vigilance wing to carry out the summary disconnection drive with zero tolerance of all consumers with usage higher than contract load.
- 4) All Chief Engineers, Additional Chief Engineers, Superintending Engineers, Executive Engineers, Assistant Executive Engineers (Distribution) to display this notice in their respective office notice boards and all collection centres.
- 5) Executive Engineer MIS with a request to publish this notice in the MeECL website along with the list of all consumers with 1kw contract load, sub division wise.

Chairman and Managing Director, MePDCL

Form for Self-Declaration of Connected Load

1. Name of the Consumer:
2. Consumer No/ Account No:
3. Category of Consumer:
4. Purpose of supply:
5. Address:
6. Contact No:
7. Email Id:
8. Details of Connected Load:

Sl. No. (A)	Name of the Appliance (B)	Load (Watt/HP) (As per actual rating) (C)	Nos. (D)	Total Load (kW/HP) (E=CXD)
1	Incandescent Lamp (Bulb)	20W 40W 60W 100W		
2	Fluorescent Tube Light	34W 36W 40W		
3	Fan	50W 60W		
4	LED Lamps	5W 7W 12W 20W 24W Any other, pls specify		
5	Music System	As per actual rating		
6	Television Black & White Colour (CRT) LCD LED SMART TV	As per actual rating		
7	Refrigerator	200W or actual		
8	Mixer Grinder	60W or actual		
9	Heater (for cooking/water heating)	1000W or actual		
10	Microwave Oven	2000W or actual		
11	Air Conditioner 1.0 Ton 1.5 Ton 2.0 Ton	1500W 2000W 2250W		
12	Computer/Laptop	100W		
13	Water Lifting Pump	375W or actual		
14	Plug Socket Point 5Amp 15Amp	100W 1000W		
15	Any Other Appliance	On actual		
Total				

Note:

1. 1/3rd of the total unused plugs in case of Domestic & General-purpose supply and 1/2nd of the unused plugs of the commercial category shall be computed for calculation.
2. Defective appliances like cooler, refrigerator, TV, Iron, Oven etc. which are not connected and not working shall not be considered in calculation.
3. For Domestic consumer having Geyser, Room Heater & Air-Conditioner, the accumulated load of Geyser and Room heater or the load of Air-Conditioner, whichever is higher will be considered for the calculation.
4. Any other item of load not included above shall be taken as per manufacturer's rating.
5. Fraction of load in kW shall be taken as next higher whole number.
6. Taken, 1HP = 0.746 kW
